

# FOS Official State List

## Florida Ornithological Society Records Committee

This is the formal list of modern bird species that have occurred in Florida by natural appearance or by establishment as an exotic. The base list is the Checklist of Florida Birds, pp. 255-260 in Robertson & Woolfenden (1992), as updated by decisions of the Florida Ornithological Society's Records Committee. Status = Review species ([Review](#)), established exotics ([Exotic](#)); extinct or extirpated native species ([Extinct](#)) and disestablished exotics (Disestablished Exotic). Extinct species do not reduce the size of the Florida list, but a disestablished exotic species does. A distinctive member of a subspecies group may be added to the list for review purposes (see below), but it shall not be counted on the list beyond the species' presence there. Review species should be documented when detected in Florida and submitted to the FOSRC for review. In addition, documentation should be submitted to the FOSRC for any species detected in Florida believed to have occurred naturally or to have escaped, but not appearing in the main list below or in its formatted download versions.

Changes to the list in November 2022 include: dropping the review requirement for American Black Duck, Hudsonian Godwit, Ruff, Long-tailed Jaeger, Sabine's Gull, Neotropical Cormorant, Alder Flycatcher, Thick-billed Vireo, Bahama Mockingbird, Western Spindalis, and Bullock's Oriole (highlighted in [red](#)); adding Gray-tailed Tattler, Bulwer's Petrel, Wedge-tailed Shearwater, and "Harlan's Hawk," a subspecies of the Red-tailed Hawk (highlighted in [blue](#)); and a re-ordering the wren family, Troglodytidae (highlighted in [green](#)).

Currently, there are 549 total taxa of which ten are subspecies, four are extinct, and one is a disestablished exotic leaving 534 extant species. Of these 534 species 17 are established exotics. One-hundred seventy-five (175) taxa should be reported for review (Review).

Species	Subspecies	Scientific name	Review
<b>ANATIDAE</b>			
Black-bellied Whistling-Duck		<i>Dendrocygna autumnalis</i>	
Fulvous Whistling-Duck		<i>Dendrocygna bicolor</i>
